Age Computation Chart 2014

This free age calculator computes age in terms of years, months, weeks, days, hours, minutes, and seconds, given a date of birth. Determine the time between today and your next birthday using the date calculator, or explore hundreds of other calculators addressing math, health, fitness, finance, and more.

Age Calculator

In 1983, Congress passed a law to gradually raise the age because people are living longer and are generally healthier in older age. The law raised the full retirement age beginning with people born in 1938 or later. The retirement age gradually increases by a few months for every birth year, until it reaches 67 for people born in 1960 and later.

Benefits Planner: Retirement | Retirement Age Calculator | SSA

The age when the birthday comes is displayed. Please subtract one when the birthday has not come. Example: The age is 39 years old (38 years old when the birthday has not come) in the person of the 1981 age birth for 2020 this year, and the Kazoedoshi is understood that it is 40 years old, and the sexagenary cycle is Tori.
