When interested in drawing comic art, usually people go for comics in panels. Now, the comic panels is considered to be a single frame in a multiple-panel sequence you find in stories in comic books or comic strips, or if the single panel contains the whole thing like in newspapers, then the panel is the story (or

Guidelines control the height and line space of architectural lettering. The maximum size is $\frac{3}{16}$ of an inch. Beyond this size, the letters require a width beyond what a single stroke is capable of producing. Use a small triangle ruler to control the straightness of your vertical. Keep all verticals perpendicular to your guidelines.
