Open Innovation The New Imperative
Open Innovation is not new - it has been around for around 50 years. Many companies used OI to give themselves and edge. It was not given a name until the 21st century when Chesbrough saw it, being used, described it, gave it the name Open Innovaton and cashed in with fancy words such as "The New Imperative For Creating & Profiting From Technology".

(PDF) Open Innovation: Researching A New Paradigm
It was originally introduced by Chesbrough in his 2003 book Open Innovation: The New Imperative for Creating and Profiting from Technology. 7 Open innovation assumes that firms can and should use external ideas as well as internal ideas, and internal as well as external paths to market, as they look to advance their innovations.

Open Innovation: Research, Practices, and Policies ...
In this new model of open innovation, firms commercialize external (as well as internal) ideas by deploying outside (as well as in-house) pathways to the market. Specifically, companies can commercialize internal ideas through channels outside of their current businesses in order to generate value for the organization.

The Era of Open Innovation - MIT Sloan Management Review
Open Innovation propounds the thesis that corporations should take a broader approach to innovation and IP (assuming that doing so fits within the company's business model). This book is essentially a series of case studies that the author uses to support his thesis.

Emerging in its place is a new paradigm, 'open innovation', which strategically leverages internal and external sources of ideas and takes them to market through multiple paths.

Open Innovation: The New Imperative for Creating and ...
The open innovation model that Chesbrough describes shows the necessity of letting ideas both flow out of the corporation in order to find better sites for their monetization, and flow into the corporation as new offerings and new business models. Finding the right balance and mech- anisms for this situation to take place is critical.
